Victoria, B. C., 5th August, 1880. au6

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Ha vana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory
The best and cheapest in Victoria.

F. CAMPBELL.

TO THE SHAREHOLDERS OF THE

### QUESNELLE QUARTZ MINING COMPANY (LIMITED.)

THE DIRECTORS OF THE QUESNELLE QUARTZ Mining Company at the end of their term of office submit the following report for your consideration:—

During the mining season of 1879 a shaft was sunk on No. 2 location to a depth of 114 feet from the surface, the size of the shaft being 7 ft. by 3½ ft. in the clear. The shaft runs through rock which had to be blasted the entire distance; it has been thoroughly timbered throughout and is secure and commodious.

At 100 ft. from the surface a cross-drive 5 ft. by 3½ ft. in the clear was run. At a distance of 33 ft. from the shaft it cut into a body of quartz, on which a level was run 20 ft. The quartz extracted was found to be much broken and mixed with bedrock, doubtless caused by the movement of the country rock which has apparently broken and disintegrated the vein at that level.

A 5-stamp quartz mill has been purchased and erected, the cost of which was greatly enhanced by the unavoidable expense and difficulty attached to moving heavy machinery for a distance of 30 miles through a rough country where no roads or trails existed.

Forty tons of quartz were worked in the mill producing 108 ounces of bullion, which sold for $1256 67.

Good and substantial buildings have been erected over all the works.

The directors are of opinion that it is advisable to sink the shaft at least 200 ft. deeper before running any cross-drifts. To accomplish this it will be necessary to place steam power on the mine; they therefore recommend that the funds of the Company be first devoted to that purpose and that arrangements be made for the purchase of engine and pumps of the requisite capacity and to place them on the ground with as little delay as possible.

The improvements made by the Dominion Government in the Cottonwood Canon will enable boats capable of carrying machinery to reach a point within 9 miles of the mine; a road thence to the mine could be constructed, which would enable machinery to be placed on the ground at a reasonable cost.

The accounts of the Company have been carefully audited; an abstract thereof is herewith given:

From the foregoing it will be seen that there are debts or liabilities owing by the company.

The property of the company is estimated at $10,346 46, a value that would not exceed the cost of replacing it under favorable circumstances.

Since work was suspended last fall everything at the mine has been under the charge of a caretaker at an expense of $75, the only other expense incurred during the last winter being those necessary for advertising, etc, the secretary having performed the duties of his office without remuneration. Neither the auditors nor directors are or were under pay at any time.
JAS. REID, President.
R. J. SKINNER, Secty.
Quesnelle, B.C., 3rd May, 1880.

I hereby certify that I have examined the accounts of the Quesnelle Quartz Mining Company, Limited, and that the foregoing is a true and fair abstract thereof.

### THE SEWING MACHINE WAR.

NO RESPECTABLE AGENT OF A RESPECTable Company would on the one hand use "Emory," or on the other, "operate" with a screwdriver," on a Sewing Machine belonging to another. Neither does the Agent nor Company appear to good advantage who disfigure the walls of our city with placards, insanely showing up each others' bogus, catchpenny machines, and parading their drivelling personalities before the public. To show how cheaply these machines are got up we clip the following advertisement from the Seattle *Intelligencer* of July 31st, 1880:—

SING or for joy! Only $18 for a genuine Singer Sewing Machine. Can see and try before you buy. Elegant finish, best materials, and finest work. Warranted 3 years. Kept in order free. # Daily Colonist.

THURSDAY MORNING, SEPT. 9TH, 1880.

L. P. FISHER, 20 and 21 New Merchants Exchange, is our authorised Agent in San Francisco.

## "THE FRASER MINES VINDICATED."

In 1859, as in 1880, the country had its detractors. There were men who went about proclaiming that British Columbia was a sea of mountains; that cereals would not ripen; that potatoes were marbles; that fruit was an impossible crop; that the sunshine rarely if ever fell on the face of the valleys, and that Victoria was a mushroom city. Moreover, they declared that the Fraser gold mines were a delusion, and that the gold reported to be washed from the bars was brought into the country in buckskin purses. To correct these statements and confound their authors Mr. ALFRED WADDINGTON sprang like a gallant knight into the arena and wrote the powerful *brochure* to which we referred yesterday. He opened with these words:

"We hear every day that Victoria has caved in; that the country has caved in; that the gold mines are a humbug; that our soil is poor, the climate Siberian; that Victoria is no port at all, and that the city will have to be removed somewhere else; in short, that the bubble has burst, and nothing remains to do but to go away. Reckless assertions are not facts."

This introduction was penned 21 years ago, and what was true of people at that time holds good to-day. Croakers abound; birds of ill-omen scurry across the business sky uttering their doleful prophecies: "*Delenda est Carthage.*" "Ichabod! Ichabod!" Men die or go away; but the city and the Province live on apparently unaffected by the illstarred predictions. Mr. WADDINGTON wielded his trenchant pen with some effect. He was a long-headed, practical, big-hearted man with an inexhaustible fountain of faith; and he threw the whole force of his vigorous mind into the defence of his adopted land. His sincerity was contagious; his example infused confidence into doubtful hearts and city and country recovered quickly from the bitter reverses of 1859 and have since prospered fairly. Naturally, the author refers to the attempts to build up towns rival to Victoria at Whatcom, Port Townsend and Semiahmoo on the American side, and at Langley on the British side. The foreign rivals had died out the year before the book appeared; but Langley was putting forward claims—as New Westminster does in our day—to be considered the chief commercial port of the province. Mr. WADDINGTON sketched the geographical disadvantages of Langley, her situation within a river across whose mouth stretch shoals that are afflicted with a tortuous channel and uncertain tides. In contradistinction with these disadvantages he held up the harbors of Esquimalt and Victoria, their safe and easy approaches, their situation as regards the Sound and coast trade, and their accessibility to shipping at every stage of water and under a condition of things that would render the navigation of Fraser river and the waters leading thereto impossible. Strange to say, in those days the Through to Yale project wasagitated. Steamboats—lightdraught sternwheelers—plied regularly between Hope and Victoria and no one dreamed of danger; but Mr. WADDINGTON with a prescience that had already placed him in the front rank of thoughtful Columbians declared that Yale was the head of navigation and ought to be so considered. Before May, 1858, the problem of Fraser river navigation by sternwheel steamboats was solved. In June large sidewheel steamers of seagoing capacity reached Hope from Victoria, and in July a sternwheeler went from Victoria to Yale without changing freight or passengers anywhere on the trip. The writer produced figures to demonstrate that while the croakers were doing their little best to draw population back to California the production of gold had gone steadily on, and that the yield of Fraser river from June 15th to October 31st, 1858, ($705,000) was greater than the yield of California or New South Wales for the first four months after the discovery of gold within their borders. Of course, at the time Mr. WADDINGTON wrote the gold of Cariboo had not been discovered. That was the product of the summer of 1860; but sufficient was known at the time to enable the author to speak with confidence of the prospects of the country. He concluded his eloquent and spirited defence as follows:

"So much for the gold mines. And now taking a farewell look at Victoria, and though comparisons are said to be invidious, let us recapitulate and confront what has been done there. We will say nothing of its climate, its unrivalled position and other natural advantages. But where, in spite of the stifling influences of monopoly, shall we find so much progress in four short months as in Victoria? Where now are her rivals, Port Townsend, Watcom, Sehome and the two Semiahmoos, for which so much has been done or attempted? Where in so short a time have there been so many streets laid out, built up and some of them graded, macadamized, planked, and even lighted up, as in Victoria? Eight substantial wharves carried out into the harbor, two brick hotels and other brick buildings, numerous frame houses and stores, besides those going up, twenty or thirty restaurants and coffee houses, steamboats built and launched, in short, all the beginnings of a large city. Where a more orderly population, or more law-abiding? Where in the United States a city without taxes, lawyers or public debt? Where in the United States the town or city where there is more money to be made, even now by the industrious trader or craftsman who is at all decently started in his business, than in Victoria?

"It is to the newspapers of San Francisco that, with one or two exceptions, we owe our bad name abroad, and the consequent check on foreign emigration. If I recollect right there exists in San Francisco an association, which has not been over successful, for the promotion of immigration. The newspapers have done better than the association, for they have succeeded not only in stopping all our immigration, but in keeping it to themselves. Much could be said on their way of treating everything in this country, but their strictures have been so evidently tinctured with jealousy that it would be hardly worth while; and as to their correspondents, some of their letters have been so ridiculous, not to say worse, that I rather suspect they must have been tinctured with rum.

"Assuredly there has been enough to find fault with, without having recourse to all these exaggerations. Most of them have been totally unfounded, and I may truly say that, under a different regime, the almost superhuman difficulties we have had to contend with would have been overcome, and our short history instead of being chequered with reverses would have presented a brighter page.

"Providence, for wise reasons, had ordained that it should be otherwise, and that our exaggerated dreams of prosperity, our castles in the air, should be roughly interrupted and destroyed. We have been brought to our senses, and some of us have been taught the lessons of adversity. Over speculation is at an end, and land agents in despair. A flock of men, the scouts of civilization, and who would have converted this country into a second California, have left our shores. Many immigrants, too, of a much better class, but who were not suited to the country, have left us. Men who wanted impossibilities—miners who have their wives and children, their homes, their claims with which to gain an independence, and all the comforts of a congenial climate in California, were not the men to stop here. Besides they had been spoiled, and no ordinary gains could satisfy them. Nor did we want so many jobbers and importers. Where goods can be thrown into the market from San Francisco in a fortnight, speculation is out of the question, and instead of 59 jobbing houses (about as many as in San Francisco), all that is wanted for the present trade with the mines and back country is a small number of wholesale merchants.

"We have then reason to be thankful, and if our short sighted disappointments have been a severe trial to all, we have still a good aftergrowth of hope before us. The truth is already spreading abroad; all the assertions of those who have left us will not diminish one ounce of the gold in our mountains, and those who are gone will soon be replaced by another population as active, more hardy and less ambitious. Let that population once reach our shores, and measures be taken to encourage them, foreigners or not. Let miners be allowed to make their own bye-laws and regulations for each bar or district, subject to the approbation of a council of mines; instead of starving them out, let the country be entirely thrown open, so that provisions may be as cheap as possible in the interior, and let the tax on goods be modified, so as to be levied on the superfluities and not on the necessaries of life. Let every one be allowed to buy land at American prices and not at five dollars an acre; and instead of throwing obstacles in the way of the colonist, give the poor *bona fide* settler a right of pre-emption, and a premium of land, taken from the wild waste, to the deserving father of a numerous family. Above all, let us have no tardy measures to drive emigrants away once more and make us lose the advantage of another year. Let all this and more, if possible, be done, and the progress of this country will be as sure as it will be rapid."

"Reader, my task is over. You may have found me prolix, but faithful to my motto, I have wished to relate more than to prove; convinced that a simple narrative would tell more than volumes of argument, assertions, or dry facts."

## The Disorganzied Schools.

TO THE EDITOR OF THE COLONIST:—Sir.—The chief clerk of the education mill is carrying matters to extremities to carry out his personal spite and demonstrate that "MY WILL IS LAW." The certificate of our teacher has been kept in *abeyance* for no cause but that he differed from his Highness who sets up for excuse that he did not strictly observe a certain rule which governed the examination. Other candidates were equally as guilty of the trifling irregularity, but no *abeyance* for them.

The trustees asked for a permit for the teacher in accordance with the regulations for granting certificates. Not a permit could be granted. Mrs. —— could get a permit. Though she failed and taught before on a permit for over three years she must be granted a permit no matter what scheme will be concocted, and of course the other two examiners fall in with whatever his Highness proposes. A candidate of undoubted ability, who has a mind of his own, can't get a permit, but failures did get permits, being on good terms with the chief. How long will the public tolerate such injustice? Here is the fourth largest school in the province, vacant over a month at the best season of the year, the teacher ready to teach and the trustees and parents more than willing that his services should be secured, but the chief won't be persuaded. Rather than grant a permit to our teacher he would see the school closed for six months. Whatever suits his own inclination he must carry out, although the government might have to give up the ghost over it. There is a time coming, and speedily too, when the people will rise with a vengeance and give a back seat to apeing government officials and great will be the fall of McKenzie. MY WILL IS LAW.

Chilliwhack, Sept. 6th.

A CAMBRIDGE mother sent her small boy into the country, and, after a week of anxiety, has received this letter: "I got here all right and I forgot to write before; it is a very nice place to have fun. A feller and I went out in a boat and the boat tipped over and a man got me out and I was so full of water I didn't know nothin' for a good long while. The other boy has got to be buried after they find him. His mother come from Chelsea and she cries all the time. A hoss kicked me over and I have got to have some money to pay a doctor for fixin my head. We are going to set an old barn on fire to-night, and I should smile if we don't have bully fun. I lost my watch and I am very sorry. I shall bring home some mud turkles and I shall bring home a tame woodchuck if I can get em in my trunk."

## A Sermon Factory.

A correspondent of a London journal sends to its editor the following circular received "by this morning's post." The practice which the document discloses, namely, the preaching of other men's sermons, is by no means a new one in England:

A COSTLY BREAKFAST SERVICE.—Mrs. J. W. Mackay, of Consolidated Virginia, recently gave a breakfast to a select number of American friends at her cottage at Trouville, on the coast of France. On this occasion the costliness of the table-service and decorations reminds one of the Arabian Nights. Not only gold, silver, and priceless procelain were used, but amber, coral, and precious stones were pressed into the service. Ices were served on crystal plates inlaid with uncut gems; wine and liquors sparkled in flasks of amber, or were contained in flagons of gold, cloisonné, and enamel; while the tiny cups in which tea and coffee were handed were probably each worth a nugget.

## ROYAL INSURANCE COMPANY,

LIVERPOOL AND LONDON.

ANNUAL MEETING.

THE SHAREHOLDERS OF THE COMPANY held their Annual Meeting on the 6th inst., and as has been customary in previous years, it affords me much pleasure to indicate on this occasion the prominent features of the very satisfactory report which the Directors were enabled to render of our transactions during the past year. It will, I am sure, be gratifying to our agents to know that the success which has hitherto characterized the operations of the "Royal" continues unabated—a fact which will be appreciated at once on a perusal of the following brief resume of the figures appearing in the report.

In the FIRE BRANCH the net premium income amounted to £779,318, and a profit has been realized of £142,140. The aggregate of premium received in the LIFE BRANCH amounted to £247,194, and as the result of the quiquennial investigation which has just taken place in this department a handsome surplus was found to have accrued for division amongst the assured and the shareholders, of which the proportion (⅔ths) payable to the policy-holders is £238,213, the balance, say, £70,404, going to the shareholders.

The funds of the Company have at the same time been materially strengthened, the sum of £100,000 having been added to the general reserve fund and £50,708 to the Life Funds, while the balance at the credit of the Profit and Loss Account has been augmented by £51,727.

The Dividend granted to the Shareholders amounted to £120,643, or upwards of 41 per cent. on the paid up capital, and the various funds of the Company now stand as follows:—

| | |
|---|---|
| Capital Paid up | £ 289,545 |
| Fire Fund | 500,000 |
| Reserve Fund | 600,000 |
| Balance of Profit and Loss | 121,434 |
| Life Funds | 2,419,615 |
| | £4,260,595 |

It will be interesting to our Agents to learn that the "Royal" is now the wealthiest known Fire Insurance Company in the world, and this circumstance will doubtless constitute a powerful assistance to each of its representatives in their efforts not only to maintain, but to improve the position which it occupies in their respective districts.

## SHOCKING ACCIDENT NEAR YALE.

### Five Men Crushed Beneath a Huge Rock.

[Exclusive Dispatch to The Colonist.]

YALE, Sept. 7.

A shocking accident happened yesterday at the three-mile post, whereby five men were shockingly and one fatally injured. A blast had been fired and a large fragment of rock remained hanging over the road when the men returned to work and fell upon them unexpectedly with the result stated. The weather is very fine.

## Nanaimo.

(Free Press.)

Mr. C. E. Jeffcock, an English mining engineer of high standing arrived by the steamer Cariboo-Fly last evening. He will immediately commence a thorough inspection of the several mines and other properties of the Vancouver Coal Company. He is accompanied by his nephew Mr. T. W. Jeffcock.... The contract for erecting a bell tower for the Nanaimo Fire Company has been awarded to Mr. G. H. Frost.... We understand it is the intention of the Pilotage Authority to appoint a fourth pilot for this district.... The red-barrel buoy off Carpenter's lumber wharf has been out of position for over a week. It is considerably nearer the beacon than it should be.... Capstans, pumps, tanks, the windlass and a lot of rigging and copper have been removed from the wrecked ship Thrasher. They are in good order and although the vessel is working considerably it is though other articles of value will yet be saved.... Thomas Nesbitt, a Scotchman who has already been in the lunatic asylum, has become insane again.... There will be a moonlight excursion on board the steamer Carriboo-Fly on the 16th inst. to Chemainus and back. Proceeds for the hospital building fund.

NEW WESTMINSTER ITEMS. — The funeral of the late J. A. Walker, who was drowned a few days since, took place on Saturday. The remains were interred in the Church of England cemetery.... The steamer Iris, having a boom of logs in tow from Pitt Lake belonging to A. W. Saunders, struck a snag at the mouth of Pitt river causing the vessel to careen and throwing one of the hands into the water. Luckily the man was observed to fall overboard and he was rescued. It was found necessary to cut the boom adrift in order to right the steamer.... Mr. J. Lawrence, of the city constabulary, has accepted the position of guard at the penitentiary.... The cohoes are increasing in numbers and it is hoped the canneries will shortly be in full operation.... Columbia College for girls is to be opened on November 1st.... A sturgeon is reported to have been caught measuring eleven feet in length, six feet in girth and weighing 1000 lbs. Fishy?.... The *Herald* says there is a rumor, and apparently a well-founded one, that the Pioneer Line is about to reduce its rates.... In the rifle match on Saturday last the printers got the worst of it by ten points. The shooting was not so good as in the previous match.... Mr. T. McKay has obtained the contract for the erection of the Government agent's office and the work will be proceeded with immediately.

NAVAL SUPPLIES.—The old established and popular firm of Goodacre & Dooley, Queen's Market, were yesterday awarded the contract for supplying her Majesty's Royal Navy on the Pacific Coast with salt meats. Messrs. Goodacre & Dooley are also the contractors for all fresh meats and vegetables for the navy.

A BARN AT SAANICH DESTROYED BY FIRE.—The large barn of George Harrison on the east Saanich road was totally destroyed by fire on Monday. A considerable quantity of grain and produce was stored therein and the loss will be serious. The fire caught from sparks from burning brush on an adjoining farm.

THE STEAMER OTTER. — Tenders for raising this steamer were opened yesterday morning, but as the bids were considered much too high Messrs. J. P. Davies & Co. have been instructed to sell her at public auction to-morrow at noon.

THE steamer Reliance left New Westminster at 7 a. m. yesterday and the William Irving at noon for Yale, both well laden with freight.

## Municipal Police Court.

[Before Hon. A. F. Pemberton.]

WEDNESDAY, Sept. 8.

Cloudy, a Kanaka, late of New Westminster, was charged by Wm. H. Jenkinson with having on the morning of the 8th September committed burglary by breaking the window of his store on Johnson street and stealing therefrom certain articles of jewelry valued at $80 and upwards.

W. H. Jenkinson, having sworn to the truth of his information, deposed that at 9 o'clock on Tuesday night he locked up his shop, leaving sundry articles in the same. He now saw produced in Court; a silver watch and gold chain valued at $40; a cigar-holder worth $10; a pipe worth $1; a gold chain, $12; a gold ring $14 and sundry other articles valued at $15; in all $92. All those articles were in his shop window when he left on Tuesday night and in consequence of what was told him by the police at about 5 o'clock the following (this) morning he went down to his store and found that the window was cut with a diamond and that part of the glass had been removed. All the articles that were within reach had been abstracted. Next saw the jewelry in the prisoner's house situate in an alley opposite his store; he accompanied a police officer and saw them found; the prisoner was present and denied having the articles in his possession before they were found; when he was arrested he had a ring on his finger which he said some one had given to him.

The Court—Did the police officer caution the prisoner that anything he said might be used against him?

Witness—No.

The Superintendent—It was not likely he would, as the man had not been arrested and the articles not yet found.

Witness—The ring prisoner had on his finger was one that I left in my window on Tuesday night.

Special Officer Hart deposed that about 4 o'clock in the morning he was in front of Salmon & Co.'s store, Johnson street, and heard something thrown as if against a window and a piece of glass falling; proceeded to Jenkinson's store, but did not notice that the window was broken at the time; saw a man going up Johnson street and followed him along Government street, overtaking him at Jeffree's corner; the man was the prisoner at the bar; witness left him alone and half-an-hour afterwards again saw him on Johnson street; examined the windows again and discovered that Jenkinson's window had been broken; reported it to Officers Sheppard and Flewin; saw the prisoner four or five times on the streets during the night.

The Court here took a brief recess.

When the court re-assembled Officer Sheppard was sworn and testified that from information he received from Special Officer Hart he proceeded to the house occupied by the prisoner whom he found in bed. He had the ring produced on his finger and, on being questioned, said that it had been given him by another man. He also stated that he knew nothing about the other stolen articles. On a search being made, however, they were found concealed beneath his mattress. Witness then took him into custody.

Officer Flewin corroborated the evidence of the last witness and the prisoner, who was undefended, was then committed for trial.

The prosecutor in the gambling case referred to in yesterday's *Colonist* failed to appear and the two defendants were discharged with a reprimand from the bench.

## Funeral.

The funeral of the late R. H. Crane took place yesterday from the Wesleyan church and was largely attended. The coffin was profusely covered with flowers. Rev. Mr. Smith offered up a touching and beautiful prayer. He prayed for the spiritual welfare of those he saw about him, enjoining them to remember from the sudden death of this promising young man that their own death might be near. He prayed for the bereaved widow and child who, hastening from the other side of the continent to join a loving husband and father, would find only a mound in the churchyard; and he prayed for the far-distant friends of the deceased and invoked divine assistance in their hour of deep grief. Many of the congregation were moved to tears during the prayer. The choir sang two appropriate hymns and Mr. E. J. Durny, organist of the R. E. Church, played Choppin's Funeral March. It appears that a short time ago the deceased heard Mr. Durny playing the march, and remarked, "When I am buried I should like to have Choppin's March played over me." His wish was gratfied. The remains were borne to the grave by the following members of the Ivy Club: Messrs. R. Hall, W. F. Archibald, L. McQuade, F. Richards, jr., W. Cameron and W. Anderson. The cortege was very large and as it moved through the streets the deepest sympathy was expressed. Although a comparative stranger the unfortunate young man had made many sincere friends by his winning manner and gentlemanly deportment.

EMORY. — Visiting the International Steam Vacuum Mining Dredge yesterday, we found a force of men busy placing machinery, etc. It is now expected that early next week all will be ready for a trial. We learn that the 30 odd tons of machinery constituting the dredge was handled 12 times between Boston, Mass., and its position upon the mammoth scow, and only a trifling break or injury occurred.... Mr. Robson has his office building now ready at Emory, and will be on hand to arrange for lots. Recently considerable inquiry has been made as to the price of lots, etc., and, no doubt, a "boom" in real estate will soon take place in this place and vicinity.—*Sentinel.*

NANAIMO SHIPPING.—The ship Frank Pendleton, laden with Wellington coal, was towed to sea on Saturday by the American tug Tacoma which returned on Monday and towed to sea the ship B. P. Cheeney, also laden with Wellington coal. The steamship Victoria will sail on the 10th from San Francisco, carrying freight to Victoria at $2 per ton. The ship Belvedere sailed on the 25th ult., for a cargo of V. C. coal. The bark H. Buck will also return. The Germania sailed on the 22nd ult. for Wellington coal.

THE flagship's band performed a number of beautiful selections, waltzes, &c., at Government Square yesterday afternoon. Although the weather was somewhat disagreeable a numerous attendance of those who appreciate good music was present.

FOR SAN FRANCISCO.—The steamship Empire, with 800 tons of Wellington coal on board for San Francisco, arrived off the mouth of the harbor yesterday morning and after taking on board several passengers proceeded on her voyage.

THE U. S. surveying vessel Fauntleroy has been at Ladner's Landing for the last ten days on business in connection with U. S. surveys.

## Yale Matters.

[Guardian's Correspondence.]

The body of the unfortunate teamster Goyette, who lost his life a few weeks ago, by being knocked by one of his horses over the 18-mile bridge, Yale-Cariboo wagon road, was picked up at Deadman's Bar, about 3 miles above Yale; no clothing was on the body but the pants; it was brought into Yale on a litter carried by six Indians, who discovered the body on the above bar, and placed in Barnard's stables, where it was put in a coffin right away and conveyed in a wagon to its last resting place on earth. No inquest, no funeral, no burial service. Now, here is one of our most worthy settlers and oldest pioneers, a man of means, too, and considerable property, buried like a dog. Had there been a coroner to hold an inquest on the body it would have been a different thing, and in that way would also be conforming with the law regulating such cases. If we only look at the lives that have been lost through fire, blasting, drowning, etc., we cannot but feel that the primary cause of such violent or unnatural deaths should be properly investigated; law and usage demand it. It is an indictable offence to bury a body liable to an inquest without sending for a coroner; but the coroner, like the village schoolmaster, is abroad—only one hundred miles out of town. There are gentlemen on the Peace Commission here, one of whom, I presume, would be willing to act if appointed.

I have just had a visit from Mr. Rombrot of the 16-Mile House. He says Goyette's Indian boy and Mr. Black, road superintendent, were on the bridge when the unfortunate man went over, on the inside of the bridge, the other side of which is protected by a rail, but there is none on the inside, hence two lives have been lost that we know of, whereas had there been a railing placed there at a cost probably of $5 such accidents would not happen; now, of course, the dead fall will be secured by a railing. 'Tis the old story —"when the steed is stolen shut the stable door."

On the 3rd inst. the case of the Queen vs. Onderdonk, was heard; this was a case of School Tax, the defendant refusing the Collector with a list of all persons in his employ, or indirectly employed by him, liable to pay School Tax, contrary to the Statute made and provided. Mr. Drake appeared on behalf of the defendant; the learned counsel contended that the School Acts should be read as one, and moved for a dismissal of the case; but the Court could not see it. His Honor, Mr. Robson, said that the Court had to be entirely guided by the Act of 1878, "41 Vic., Chap. 16, an Act to amend the School Act 1876 (*con stat c., 113.*)" and that unless Mr. Drake could produce some subsequent Legislative Act bearing upon the case, the Court would be regulated in their decision by the abovenamed Act. The fine was $100, to be levied, etc., or one month's imprisonment; but as Mr. Onderdonk was laboring under a misapprehension in regard to the spirit of the Act, the Court would only impose a nominal fine of $10, and hoped that the statute would hereafter be complied with.

At the first tunnel a large stone rolled down the mountain, passed through the roof of the blacksmith's shop, knocked the anvil off the block, injured one man severely and slightly hurt another. These boulders are continually coming down the mountain owing, principally, to the late rains and the shocks of the Onderdonk earthquakes. Precaution is about to be taken to prevent any more accidents of that nature.

To a stranger who has never seen any tunneling, the steam drill or the giant powder usurp its power, it would really be a big treat. When the shot is about to be fired, all hands congregate on the bank above the bearings of the tunnel, the shot is fired, when the displaced rock comes pouring out of the mouth of the tunnel, just as grape and cannister comes out of a piece of artillery of heavy calibre and is landed some sixty feet from the mouth.

On the last day of last month one of those terrific sand blasts went off doing some damage by causing a portion of the steam drill machinery to deposit itself in the Fraser in very deep water and the boiler was dented in several places from rocks rolling down the mountain.

Now is the time for fly-fishing; any amount of the finest mountain trout to be basketed in almost every mountain stream from the Coquitlam to Spuzzum Creek 10 miles above Yale where the road crosses.

An Indian boy aged about 12 years was drowned last Friday near the bank of the river opposite Yale; he fell off a rock and disappeared.

For the last week the weather has been cold and rainy, the wind light.

[From the Inland Sentinel.]

Mr. Bender, of Mr. Cambie's party, is to-day at Emory with an engineering force completing the work upon this end of the line of railway. In a few days the workmen will be preparing the bed to lay the rails and make ready for the cars.

The Romano Billiard Hall will soon be ready for use. Messrs. Douglas & Deighton have their new building occupied by their extensive saddle and harness business which requires the whole building for sales room and workshop.

Dr. McLean has returned to Yale after a pleasant trip to Cariboo. He has received the appointment from the Chinese High Commissioner of doctor to the Celestials employed along the railway.

Mr. B. Douglas, who has been the prompt and obliging postmaster for Yale these many years past, now finds it necessary to give his undivided attention to his business, and Mr. James Fraser of New Westminster has been appointed as Mr. D.'s successor.

THE kind friends who sent gifts of various kinds of provisions, fruit, shoes and clothing to the P. O. Home during the month of August are very gratefully thanked by the ladies of the P. O. H. committee. They also thankfully acknowledge a donation of $5 from Mr. Walther and Mr. F. Payne's continued liberality to the children in the "Home."

FROM NEW WESTMINSTER.—The steamers Princess Louise and Enterprise arrived here yesterday afternoon from New Westminster with the lower mainland mails and passengers. The Enterprise also had on board 350 cases of salmon from Delta cannery.

UNDERTAKING.—Mr. Charles Hayward has been awarded the naval contract for undertaking.

THE Western Slope has been tied up at New Westminister and all hands discharged.

THE steamer Cassiar will be brought over here, registered as a British bottom, and placed on the Victoria-Yale route.

THE steamer Grappler sailed for the north yesterday afternoon, calling at Cadboro Bay for cattle.

## County Court.

[Before Hon. A. F. Pemberton.]

WEDNESDAY, Sept. 8.

*In re* Drout—Mr. Theodore Davie applied under the Homestead Ordinance for the goods seized in execution at the suit of Messrs. Stoitz, Earle, Mayerau, Heathorn and Rhodes.

The application was opposed on behalf of the execution creditors by Messrs. Hett and Pooley, who contended that Drout, having absconded from the province in order to defeat his creditors, was not entitled to claim the usual homestead exemption.

His honor reserved judgment.

COMING.—A telegram received here yesterday by Mr. J. F. Engelhardt states that the steamship Dakota will leave San Francisco for this port at 2 p. m. to-morrow.

NAVAL.—H. M. S. Triumph leaves on Oct. 2nd for Honolulu, whence she will proceed to Tahiti.

## Male and Female "Æsthetics."

The favourite *point d'appui* of the male æsthetic is the chimney-piece, which, fortunately, was not in the Queen Anne style on this occasion, or it would have been impossibly high. This is the attitude. Lean the elbow on the chimney-piece. Turn back the open hand, so that it may comfortably support the side of the jaw. The head is thus thrown back and the nose, consequently, is well in the air. It is one of the first lessons to be learned by the novice in æstheticism to wear the nose thus. The back is slightly bent, and one leg is gracefully curled round the other. The thinner the legs the better. No æsthetic must venture to be even comfortably round and substantial. When an æsthetic grows stout he immediately turns renegade, and laughs at his former companions. The attitude of the æsthetic lady is also worth describing. She begins by getting her chair close to the wall, and then sinks into it sideways in such a way that her draperies leave the outline of her figure plainly visible. Having ascertained without appearing to do so that this is correctly arranged, she leans her head against the wall, the as short, as possible. Next, she stretches her arms to their utmost length, and crosses her hands so that the fingers droop in a blank, dejected, outstreched way over her knees. Having quite completed her attitude, her immobility strikes outsiders as something to be wondered at. She will remain thus for an hour at a time. If she stands, she wears her arms behind her, with the fingers interlaced, or she does the chimney-piece business with the top of the piano, for the men are sure to have already appropriated all the available mantel-boards. But these minor affectations of dress and bearing fade into insignificance when compared with the silly inanities of their talk. It is not to be transcribed in its utter meaningless twaddle. So conscious are even the utterers of the weakness of the rubbish they talk that they italicise and accentuate every third or fourth word they utter, in the attempt to give it even an outer glaze of meaning.—*London Truth.*

## Shaving the Gypsies.

Gypsies, especially in Eastern Europe, are accomplished tinkers, gifted fiddlers, and, above all, highly picturesque objects; but their extraordinary handiness at snapping up such "unconsidered trifles" as geese, ducks and fowls from poultry yards and pond sides causes the proprietors of those feathered bipeds to wish the visits of the Romiony might resemble those of angels in the respect of being "few and far between." The town of Szegedin, in Lower Hungary, has for some time past been especially favored by a numerous tribe of these predatory wanderers, who, frequently expelled from its precincts, returned thither again and again, never failing to annex a considerable amount of personal property during their oppressively recurrent sojourns. Innumerable complaints reached the Chief of Police from the townfolk, with whose portable chattels the Zigeuner persisted in making free, and that official was sorely perplexed how to deal with his unwelcome visitors, when one day a brilliant idea struck him. Hungarian gypsies rejoice in luxuriant locks; so the astute Stadthauptmann took the specially offending tribe into custody—men, women, and children, and, summoning the town barbers to his assistance, commanded them forthwith to shave the heads of his swarthy captives, irrespective of age or sex. His orders were carried out to the letter, and in a few minutes the whole tribe, with polls as smooth as billiard balls, were conveyed under escort to the tower gates in a state of indescribable discomfiture. It is expected that gypsies will henceforth give the town of Szegedin and its ingenious pretor an uncommonly wide berth.—*From the London Telegraph.*

HOW SHE RECEIVED HIM.—Napoleon B. Arthur deserted his wife and family at Marysville, Ohio, twenty years ago, to elope with a neighbor's daughter. His wife remained on the farm and reared their children, while he wandered about the country. A poor, broken old tramp presented himself recently at the homestead. This was the wreck of the husband and father. He begged for food and lodging, expressing the utmost contrition for his behavior. The wife acted with promptness. She set the dog on him, and he barely escaped with his life.

## The Title of "Singer" a Trade Mark.

When the Singer sewing machine patents expired in 1877 a number of companies were formed to manufacture "Singer" machines, a prefix being usually added as "New York Singer;" but an Ohio Court has just decided that the word "Singer" is a trade-mark in whose use the courts will protect the original company. A like case has been carried to the House of Lords in England and decided in favor of the Singer Company. —*S. F. Bulletin, Aug. 25.*

## DO WE EAT TOO MUCH?

### A Comparative Study of the Question of Nourishment.

[From the London Standard.]

The amount of nourishment which a person needs greatly depends on his constitution, state of health, habits and work. A sedentary man requires less than one whose duties demand the exercise of his muscles, and a brain-worker needs more than an idler. But unquestionably the majority of us take more than we need. Indeed, food and work are distributed most unequally. The man of leisure is also the man of means, and, accordingly, fares sumptuously every day; while the laborer toils for eight hours, and finds it difficult enough to repair the waste of his tissues. Yet a Chinaman or a Bengalee will toil under a tropical sun, and find a few pice worth of rice or jawran sufficient to sustain his strength. A Frenchman will not eat half what an Englishman engaged in the same work will demand, and a Spanish laborer, content in ordinary times with a watermelon and a bit of black bread, will toil in the vineyards and grow fat on a dietary of onion porridge and grapes.

It is true that Mr. Brassey, when building the Continental railways, found that one English navy was worth a couple of spare-fed foreigners. But, on the other hand, the British Columbian and Californian gold-diggers, than whom a more magnificent set of athlets does not exist, live in the remote mountains of the Far West mainly on beans flavored with a few cubes of pork. But they also obtain the best of water and the purest of air, and their outdoor life and active exercise enable them to digest every ounce of their frugal fare. The English soldiers, though better fed than those of any army except the American, do not get one-half the amount of solid nutriment which the idlest of club-loungers considers indispensable for his sustenance. An athlete in training is allowed even less food; yet he prospers on the limited fare, and prolongs his life by the regimen to which he has been subjected. King Victor Emmanuel was a monarch of the most robust physique, yet he only ate one meal per day; and it is manifestly absurd for any man to require three more or less weighty meals, and an afternoon cup of tea, to support the exertion of walking to the club, riding an hour in the park writing a note or two, and dancing a couple of miles around a ball-room.

The ancients had their "amethustol," or "sober stones," by which they regulated their indulgence at table. The moderns have not even this. But they have their gout and their livers to warn them, when it is too late, that Nature has been overtasked.

## The Lantry Jersey Waist.

A correspondent, writing from Saratoga, says:

The Langtry Jersey waist has appeared here, and is pronounced by all the ladies to be "too sweet for anything—peafectly devine." The garment is simply a ready made dress waist, without seams, buttons or lapels. It is knitted like a silk glove. In fact, the whole waist is a sort of gigantic glove, drawn over the bust instead of over the hands.

Its beauty and simplicity consists in its destroying all the old seams and wrinkles. It fits around the arm as a silk glove fits around the thumb. It preserves the outlines of the plump female form, and gives a voluptuous look that ruffles, wrinkles and seams destroy.

A woman with a Jersey waist looks like a walking statue. Whitewash a beautiful woman in Jersey and you would have the Venus de Medici.

The garment is pulled on over the head like a gentleman's merino shirt—the hole in the top for the head being very small. Two of them have appeared at the United States, and they have been bomb-shells in the feminine camp.

## To the Public.

The public is perhaps not aware why the eight *English* Companies doing business here have suddenly become so patriotic as to publish ("purporting") departmental reports of Canada and paying for them out of their own pockets. When the "PHENIX" of Brooklyn had done business here about a fortnight we received a letter signed by H. S. Mason, Secretary of the eight companies who have hitherto done business here, to adopt the minimum rates. This we declined to do on behalf of the Phenix. Next morning and ever since the papers have been flooded with insurance information which nobody asked for, and which was only put in to prevent people insuring in the Phenix and keep up the high rates hitherto ruling here. As the matter is pretty well ventilated now we wish to inform the public that our Victoria rates are:—*For isolated dwellings ¾ per cent. a year or 1½ per cent. for three years*, exclusive of city tax,—just half the rate charged for the same risk by the eight companies represented by Mr. Mason.

That the PHENIX stands very high as an honorable company we publish a letter received, unsolicited, from an American fire office in San Francisco.

"We note your advice to the Fire Department of having taken the agency of the PHENIX of Brooklyn, New York. It is a *first class company* and you will do doubtless a good business for it. We regret for ourselves that there will be a probable cessation of risks from your quarter, but are glad for your sake that so good a company has come your way and wish you lots of luck with it. Yours truly,

"W. J. DUTTON,

"Asst. Sec. Fireman's Fund Ins. Co."

The PHENIX has got a *Cash Capital of $2,532,669*, which is more than the insured value of all the property in British Columbia, hence there is absolute security. A deposit of $104,000 is made with the Dominion Government.

We have authority to settle all losses in Victoria, and promptly, too, not like one of the advertising companies, which took 3 months to pay a loss incurred less than 2 years ago.

## War Declared Between the New York Original Singer Sewing Machine W. H. Adams, Agent, and the Bogus Imitation Article Hawked about Town.

To protect the public from being taken in and done for by the claptrap posters round the city, puffing up the "Imitation Singer Sewing Machine" as being better and cheaper than "The original New York Singer Machine," for the sale of which I am the sole agent in British Columbia, I, W. H. Adams, feel it a duty I owe to the community to tell them we are determined not to be beat, or to have our position cut from under us by attempted competition from inferior machines made only for sale, the work of unprincipled makers, and offered at tempting but deceptive prices to catch customers.

The cheap imitation Singers that the agent asks $40 for are everywhere else sold for $25, and dear at that figure. We take our stand as the agents for the sale of "The original New York Singer Sewing Machine" in the fullest confidence, as requiring no low puffing on every corner of the streets of our city, or its inhabitants to be dunned to cause forced sales. We stick to our colors, not like our opponent in Fort street one month cracking up "Osborne A" as the "*real Simon Pure*," and all perfection; another month that "The American" is the "*real jam*," then "The Wilson," all of which machines are now shelved, or broken up for old iron. The Fort street man having discovered that he made a slight mistake in past praise of *worthless machines* has now the audacity to expect the public will believe his last yarn about this imitation Singer being the best thing out. Doubtless, so far as he is concerned, what with its inferior workmanship, and cheap and trashy getting up, it is the best suited for him by which to gull and deceive the public to his advantage, but to their detriment.

N. B.—Those wanting a sewing machine that may be relied upon, and who are desirous of making a good and safe investment in the purchase, will please note that there is always a choice selection on hand at the depôt of

W. H. ADAMS, Agent.

### May God Bless You.

KEOKUK, Iowa, March 15, 1879.

DEAR SIR:—I have been afflicted with kidney trouble, causing a dull, heavy pain, and compelling me to urinate very often, especially at night. But I took one and one-half bottles of your remedy [Safe Kidney and Liver Cure] and am now free of pain in my kidneys. Just before taking it, I went to bed, expecting never to get up again. I want some more of it at once. Please send three bottles C. O. D. I would not be out of it for any money, for it is the only medicine that has done me a particle of good during the last five years, and I verily believe that I got hold of it in answer to prayer. I am now going around to see Albert Patterson, who has the same trouble and is not expected to live, and I am going to share my medicine with him. I believe I could sell one hundred bottles in this town in one month, for I know about forty persons who were afflicted as I was, and one died last week. May God bless you for giving me the relief that I now feel, for it is more than anything else or anybody has ever done.

Yours, under obligation,

4 J. A. M. COLLENS.

### Holiday Presents.

Make your wife a present of a cooking stove or range manufactured at the Albion Iron Works, and you are bound to have a Christmas and New Year's dinner worth eating.

They are the pride of every household and when you go home to your meals, your wife will meet you with a smile and a well-cooked meal.

These are the only stoves that contribute to domestic happiness.

Testimonials without number.

Call and examine for yourself at the manufactory on Store, Chatham and Discovery streets. *

### Good Advice.

Now is the time of year for Pneumonia, Lung Fever, &c. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment *that* cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages, and other fatal diseases may set in. Although it is true GERMAN SYRUP is curing thousands of these dreaded diseases, yet it is much better to have it at hand when three doses will cure you. One bottle will last your family a whole winter and keep you safe from danger. If you are consumptive, do not rest until you have tried this remedy. Sample Bottles 10 cents. Regular size 75 cents. Sold by your Druggist.

### From a Distinguished Clergyman.

WASHINGTON, D.C., June 19, 1879.

I have known of several persons who regarded themselves as greatly benefitted, and some of them as permanently cured of diseases of the kidneys and urinary organs by your medicine, Warner's Safe Kidney and Liver Cure. I have known, too, of its use in similar cases by physicians of the highest character and standing. I do not doubt that it has great virtue.

## A BYLAW

FOR RAISING A MUNICIPAL REVENUE ON REAL AND PERSONAL PROPERTY IN THE YEAR 1880.

1. Be it enacted by the Mayor and Council of the Corporation of the City of Victoria as follows:—

2. There shall be raised, levied and collected in the year 1880 upon all real and personal property mentioned in the assessment roll in force in the City an equal rate of eight-tenths of one per cent. on the assessed value thereof as appears by the said roll.

3. The aforesaid taxes shall be due and payable by the person or persons liable for the same to the Collector for the Municipal Council at his office in the City Council Chambers, Victoria, on the fifteenth day of July, in the year 1880.

4. The Victoria Revenue Bylaw, 1879, so far as the same relates to the imposition of a tax or rate of eight-tenths of one per cent. in the year 1880 upon the assessed value of the real and personal property mentioned in the assessment roll for the time being in force is hereby repealed providing always that all payments of the said rate for the year 1880 already made by any person or persons shall be dealt with in the same manner and be as valid in all respects as if the same had been made after the passing of this Bylaw and under the provisions thereof.

5. The special rate imposed by the Water Works Debenture and Revenue Bylaw, 1877, and by the Bylaw to authorize the raising of twenty thousand dollars, 1878, shall continue to be raised, levied and collected in addition to all rates and taxes imposed under this Bylaw and shall be applied to the purposes specified in the said Bylaws respectively.

6. The annual tax authorized to be assessed, levied and collected by the Victoria Road Tax Bylaw, 1877, as amended by the Victoria Road Tax Amendment Bylaw, 1877, shall continue to be assessed, levied and collected in addition to the rates and taxes imposed by this Bylaw and shall form part of the general Municipal Revenue.

7. Clause 10 "The Victoria Revenue Bylaw, 1879," is hereby amended by striking out the word "three" immediately before the word "calendar" in the last line thereof and inserting in lieu thereof the word "one."

8. Schedule A of "The Victoria Revenue Bylaw, 1879," is hereby amended by inserting therein after the words "Every proprietor or manager of any theatre within the City limits for a single entertainment $5" the following words "and for a week $15," and by inserting therein after the words "and for the minor exhibitions for single entertainments $2 50" the following words "and for a week $7 50." And by striking out the figures $10 after the words "every commercial traveller" and inserting in lieu thereof the figures $20.

9. The Victoria Revenue Bylaw, 1879, as amended by the Victoria Amendment Revenue Bylaw, 1879, and by this Bylaw shall continue in force and all licenses and taxes imposed thereby shall continue to be collected thereunder.

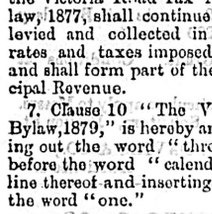

10. This Bylaw may be cited as the Revenue Bylaw, 1880.

### WARNER'S SAFE REMEDIES

WARNER'S SAFE PILLS

Are an immediate and active stimulus for a Torpid Liver, and cure Costiveness, Dyspepsia, Biliousness, Bilious Diarrhœa, Malaria, Fever and Ague, and should be used whenever the bowels do not operate freely and regularly.
Their action is gentler than that of other pills, and at the same time more effective. No other pills require such small doses for thorough work.
They have been used with great success in the English army where Malaria prevails, and are the best antidote for all kinds of Malarial Poison.
People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.
They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and should always be preferred to pills which irritate as a violent cathartic, causing nausea and weakness.
Price, 25 cents a Box.

WARNER'S SAFE NERVINE

Quickly gives Rest and Sleep to the suffering, cures Headache and Neuralgia, prevents Epileptic Fits, and relieves Nervous Prostration brought on by excessive drink, over-work, mental shocks and other causes.
Powerful as it is to stop pain and soothe disturbed nerves, it never injures the system, whether taken in small or large doses.
It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.
Warner's Safe Nervine is the improved discovery of the most skillful nerve doctor of the world, and an inestimable blessing to all who suffer.
Bottles of two sizes: prices, 50 cts. and $1.00.

Warner's Safe Kidney and Liver Cure, Safe Diabetes Cure, Safe Bitters and Safe Tonic are also superior remedies, unequalled in their respective fields of disease.
Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

CHAMPION PORTABLE SAWMILLS

George Book writes, St Anna, Ontario, June 17th, 1879, regarding his 16 horse power Champion Sawmill: "Last week, on Monday morning, three men of us commenced to tear up mill and move it, we tore up, moved three miles, set it up and on Tuesday at three o'clock sawed a log with it. Not quite two days In one week we moved and set it up as mentioned, and sawed twenty thousand feet. I will write full particulars soon. We sawed six hundred feet in twenty-nine minutes—inch lumber." Three sizes built—12 H.P. using 44 in. saw, capacity 3 to 4000 per day. 16 H. P. using 48 in. saw, Capacity 4 to 5000 per day. 20 H. P. using 52 in saw, No. 3 saw irons. Capacity 5 to 8000 per day.

DYSENTERY CHOLERA FEVER AGUE, COUGHS, COLDS.
DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.
CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.
The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE.
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.
CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.
CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.
CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.
CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.
EXTRACTS FROM MEDICAL OPINIONS.
The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.
From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."
Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.
Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."
See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.
CAUTION.—None genuine without the words "Dr J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.
Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.
